washrooms are properly cleaned and it is ensured that water coolers are cleaned and repaired from time to time.

- Around 92% of students are satisfied with the functioning of placement cell. Placement cell organizes regular seminars and guest lectures to enhance their communication skills and prepare them for future job interviews.

Feedback from Teachers' about Curriculum

Feedback from teachers about curriculum design and delivery is collected and analysed so that proper suggestions and changes can be incorporated for improvisation of curriculum.
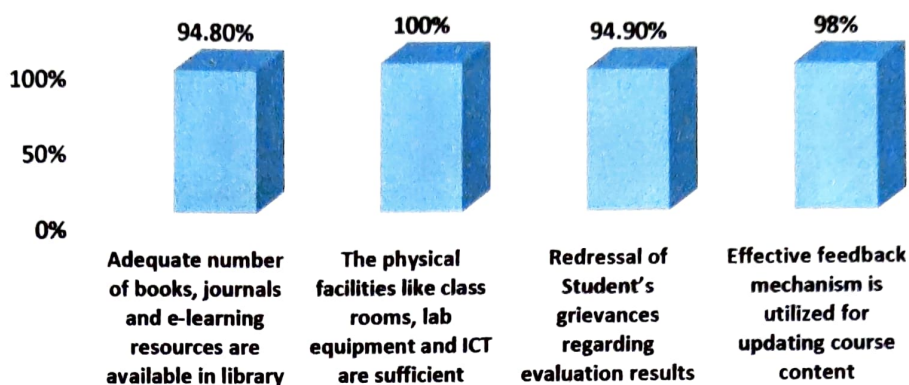

Curriculum Design

	Relevance to intended learners	Practical oriented and challenging	Relevance to the regional/national developmental needs	Encourages self-exploration for attainment of educational objectives	Enables the teachers to execute their roles as guides/mentors etc.
Series1	97.40%	96%	92%	94%	100%

- Around 98% of teachers are satisfied with the present curriculum design of different courses. They found that course syllabus are appropriate for intended learners.

- Most of the faculty members (96%) found that curriculum is practically oriented and provides students both the theoretical and practical knowledge.

- Majority of faculty members (92%) do agree that the designed curriculum satisfy the regional and national development needs. The course content is designed in such a way that it enhances their skills and prepare them to meet the future demands of nation.

- Most of the faculty members do agree that curriculum provides sufficient opportunities and time for exploratory activities. Students get sufficient time for extracurricular activities along with their regular classes.

All the faculty members do agree that present curriculum design enable them to execute their roles as mentors and helps them to guide students in every possible way.

Curriculum Delivery

	Adequate number of books, journals and e-learning resources are available in library	The physical facilities like class rooms, lab equipment and ICT are sufficient	Redressal of Student's grievances regarding evaluation results	Effective feedback mechanism is utilized for updating course content
	94.80%	100%	94.90%	98%

- Most of the faculty members are satisfied with the books and e-resources available in library. But still new books are included in library every year to provide better reading experience to faculty and students.

- All the faculty members strongly agree that lab facilities and ICT are sufficient in college.

- The student's grievances regarding evaluation of results are properly redressed. If any fault is found then proper representation from students dully approved by college authorities is sent to the University for Required Actions.

- Most of the teachers do agree that effective feedback mechanism is followed for updating the course content. Board of studies members update course syllabus regularly according to the demand.

Feedback from alumni

The alumni association of any institution provides a platform for the alumni to share their career experiences with the college and strengthen their bond with the Alma matter. It is also a chance for the institute to improve their administration and infrastructure with their valuable unbiased suggestions.

- Most of the alumni appreciate their quality time spent in the college but they also emphasized on the introduction of the short term job oriented courses and master courses which can provide them better job scope in the industry.

- The alumni of the college also suggest to increase the number of placement derives.
