

Report of the Webinar organised by the Department of Economics

The Department of Economics of the college had organised a webinar on “Opportunities and Challenges of Teaching and Learning Online” on May 15, 2021. Dr. Vidhi Miglani, Education-Innovation and Training Coach and a noted public speaker was the resource person for the event. Dr. Miglani emphasized on various aspects of online teaching and learning to the participants. She pointed out the opportunities and challenges faced by both teachers and students in online learning. The session was highly interactive. Dr.(Mrs.) Meena Chopra congratulated the department for organizing the talk on such a relevant topic

The screenshot displays a Google Meet session. The main content area features a slide titled "What Future Holds?". The slide includes a bar chart titled "Figure 12: Skills Targeted by Ed-Tech Innovations" and three bullet points discussing the future of education.

Skill Category	Percentage Targeted
Literacy	~65%
21st Century Skills	~60%
Numeracy	~45%
Science	~35%
Other Academic Subjects	~30%
Digital Literacy	~25%
Intra/interpersonal Skills	~20%
Citizenship	~15%
Vocational Skills	~10%
Arts	~5%

- A "great unbundling" will see traditional degree courses make way for companies offering focused training in soft skills, core skills, critical thinking or an opportunity to network.
- Shorter courses, ROI-oriented career choices and a switch to lifelong learning will power new business models in education.
- Person-to-person contact as well as AI will be essential of the future of education.

The right side of the screen shows a grid of participant video feeds. The bottom of the screen shows meeting controls (mute, video, chat) and the Windows taskbar with the time 11:50 on 15-05-2021.
